

DCCN Index 1994

Volume 13, Numbers 1-6

Author Index

- Artinian, N, Applying System-Based Family Models: What to Look for in Assessing Critical Care Families, 14.
- Artinian, N, Selecting A Model to Guide Family Assessment, 4.
- Biel, M, Nurse Inventors: Turning Ideas into Products, 202.
- Bouley, G, von Hofe, K, Blatt, L, Holistic Care of the Critically Ill: Meeting Both Patient and Family Needs, 218.
- Briones, J, Patient-Family Conflicting Issues, Part I: The Case, 44.
- Broom, C, Patient-Family Conflicting Issues, Part II: Case Analysis, 46.
- Callaghan, S, Doremus, K, Wilson, D, O'Donnell, M, Minitracheostomy: An Alternative to "Blind" Endotracheal Suctioning, 38.
- Catalano, J, Treatments Not Specifically Listed in the Living Will: The Ethical Dilemmas; Part I: The Ethical Case and Part 2: Ethical Analysis, 142.
- Corley, M, Selig, P, Prevalence of Principled Thinking by Critical Care Nurses, 96.
- Crimlisk, J, Paris, R, McGonagle, E, Calcutt, J, Farber, H, The Closed Tracheal Suction System: Implications for Critical Care Nursing, 292.
- Cross, R, Urbanski, B, Providing Pain Control for the Critically Ill Substance-Abuse Patient, 282.
- DePew, C, Noll, M, Inline Closed-System Suctioning: A Research Analysis, 73.
- Diehl, C, Haas, J, Schaefer, K, The Brain-Dead Pregnant Woman: Finding Meaning to Help Cope, 133.
- Dugger, B, Macklin, D, Rand, B, Veni-Gard Versus Standard Dressings on Hemodynamic Catheter Sties, 84.
- Fearon, M, Rusy, K, Transcranial Doppler: Advanced Technology for Assessing Cerebral Hemodynamics, 241.
- Hearns, P, Differentiating Ischemia, Injury, Infarction: Expanding the 12-Lead Electrocardiogram, 172.
- Hearn, P, Expanding the 12-Lead Electrocardiogram to Differentiate Ischemia, Injury, and Infarction, 180.
- Heidenthal, P, O'Connor, M, Nursing Assessment of Portable AP Chest X-rays, 133.
- Jairath, N, Strategies for Motivating CCU Patients, 326.
- Jenny, J, Logan, J, Promoting Ventilator Independence: A Grounded Theory Perspective, 29.
- Johnson, D, Preparing Children for Visiting Parents in the ICU, 152.
- Long, C, Greeneich, D, Family Satisfaction Techniques: Meeting Family Expectations, 104.
- Marx, E, Physical and Chemical Restraints: Meeting the Challenge, 58.
- Mays, L, Eckert, S, Synchronous Independent Lung Ventilation, 249.
- Molter, N, Families are not Visitors in the Critical Care Unit, 2.
- Moyer, J, Factors Related to Length of ICU Stay for CABG Patients, 194.
- Norton, M, Penckofer, S, Amiodarone Pulmonary Toxicity: The Nursing Challenge, 302.
- Oddi, L, Balancing Autonomy: Increasing Patients' Involvement in Decisions, 70.
- Oddi, L, Enhancing Patients' Autonomy, 69.
- Pettrey, L, DiLeva, K, Preparing for Cardiomyoplasty: A New Horizon in Cardiac Surgery, 226.
- Pettrey, L, DiLeva, K, Preventing Complications in the Dynamic Cardiomyoplasty Patient, 238.
- Rasmussen, M, Managan, D, Third Generation Antitachycardia Pacing Implantable Cardioverter-Defibrillators, 284.
- Redick, E, Kurack, T, Marketing Critical Pathways in Critical Care, 323.
- Redick, E, Stroud, A, Kurack, T, Expanding The Use of Critical Pathways in Critical Care, 316.
- Reider, J, Anxiety During Critical Illness of a Family Member, 272.
- Schaefer, K, Prisaznik, P, Keeler, D, Designing a Product Evaluation Project Using Research Principles, 264.
- Schreck, P, Josker, J, Norris, MK, The CarePlan Card: Building Collaboration in Medical and Nursing Orders, 90.
- Sharber, J, Oxygen Radicals and Calcium Ion Flux: Role in Reperfusion Injury Following AMI, 256.
- Speers, A, Crossword Puzzles: A Teaching Strategy for Critical Care Nursing, 52.
- Sullivan, J, Neuro-Invasive

- Sullivan, J, Neuro-Invasive

- Monitoring: The Nurse's Dynamic Decision-Making Role, 170.
- Taggart, J, Lind, M, Evaluating Unplanned Endotracheal Extubations, 114.
- Taggart, J, Lind, M, Preventing Unplanned Extubations, 123.
- Thompson, E, Adenosine Thallium Imaging: Pharmacodynamics and Patient Monitoring, 184.
- Thompson, E, Radiofrequency Catheter Ablation for Wolff-Parkinson White Syndrome Part 2: Preventing Complications, 17.
- Tosone, N, Marcy, D, Thielen, J, Vyhlidal, S, Discharge Teaching for the Directional Coronary Atherectomy Patient, 208.
- Twomey, C, Preventing Complications in Double-Lumen Endotracheal Tubes, 309.

Subject Index

Assessment Techniques

- Selecting A Model to Guide Family Assessment, 4

Advanced Directive

- Treatments Not Specifically Listed in the Living Will: The Ethical Dilemmas; Part I: The Ethical Case and Part 2: Ethical Analysis, 142

Advanced Technology

- Nurse Inventors: Turning Ideas into Products, 202
- Synchronous Independent Lung Ventilation, 249
- Third Generation Antitachycardia Pacing Implantable Cardioverter-Defibrillators, 284
- Transcranial Doppler: Advanced Technology for Assessing Cerebral Hemodynamics, 241

Applied Pathophysiology

- Oxygen Radicals and Calcium Ion Flux: Role in Reperfusion Injury Following AMI, 256

Applied Pharmacology

- Adenosine Thallium Imaging: Pharmacodynamics and Patient Monitoring, 184
- Amiodarone Pulmonary Toxicity: The Nursing Challenge, 302
- Physical and Chemical Restraints: Meeting the Challenge, 58

Applied Research

- Designing a Product Evaluation Project Using Research Principles, 264
- Factors Related to Length of ICU Stay for CABG Patients, 194
- Prevalence of Principled Thinking by Critical Care Nurses, 96
- Promoting Ventilator Independence: A Grounded Theory Perspective, 29
- The Closed Tracheal Suction System: Implications for Critical Care Nursing, 292
- Veni-Gard® Versus Standard Dressings on Hemodynamic Catheter Sites, 84

Assessment Techniques

- Differentiating Ischemia, Injury, Infarction: Expanding the 12-Lead Electrocardiogram, 172
- Nursing Assessment of Portable AP Chest X-rays, 133

Autonomy

- Enhancing Patients' Autonomy, 69

Cardiac

- Adenosine Thallium Imaging: Pharmacodynamics and Patient Monitoring, 184
- Differentiating Ischemia, Injury, Infarction: Expanding the 12-Lead Electrocardiogram, 172
- Expanding the 12-Lead Electrocardiogram to Differentiate Ischemia, Injury, and Infarction, 180
- Factors Related to Length of ICU Stay for CABG Patients, 194
- Oxygen Radicals and Calcium Ion Flux: Role in Reperfusion

Injury Following AMI

- Preparing for Cardiomyoplasty: A New Horizon in Cardiac Surgery, 226
- Preventing Complications in the Dynamic Cardiomyoplasty Patient, 238
- Radiofrequency Catheter Ablation for Wolff-Parkinson White Syndrome Part 2: Preventing Complications, 17
- Third Generation Antitachycardia Pacing Implantable Cardioverter-Defibrillators, 284

Cardiovascular

- Veni-Gard Versus Standard Dressings on Hemodynamic Catheter Sites, 84

Case Management

- Expanding The Use of Critical Pathways in Critical Care, 316
- Marketing Critical Pathways in Critical Care, 323

Discharge Teaching

- Discharge Teaching for the Directional Coronary Atherectomy Patient, 208

Collaborative Practice

- The CarePlan Card: Building Collaboration in Medical and Nursing Orders, 90

Critical Care Nursing Techniques

- Holistic Care of the Critically Ill: Meeting Both Patient and Family Needs, 218
- Minitracheostomy: An Alternative to "Blind" Endotracheal Suctioning, 38

Current Controversy

- Preparing Children for Visiting Parents in the ICU, 152

Decision Making

- Balancing Autonomy: Increasing Patients' Involvement in Decisions, 70

Editorial

- Families are not Visitors in the Critical Care Unit, 2
- Neuro-Invasive Monitoring: The Nurse's Dynamic Decision-Making Role, 170
- Physical and Chemical Restraints: Meeting the

- Challenge, 58
- Providing Pain Control for the Critically Ill Substance-Abuse Patient, 282

Education Strategies

- Crossword Puzzles: A Teaching Strategy for Critical Care Nursing, 52

Ethical Case Comment

- Treatments Not Specifically Listed in the Living Will: The Ethical Dilemmas; Part I: The Ethical Case and Part 2: Ethical Analysis, 142

Ethical Issues

- Enhancing Patients' Autonomy, 69
- Patient-Family Conflicting Issues, Part II: Case Analysis, 46
- Patient-Family Conflicting Issues, Part I: The Case, 44
- The Brain-Dead Pregnant Woman: Finding Meaning to Help Cope, 133
- Prevalence of Principled Thinking by Critical Care Nurses, 96

Family

- Anxiety During Critical Illness of a Family Member, 272
- Applying System-Based Family Models: What to Look for in Assessing Critical Care Families, 14
- Families are not Visitors in the Critical Care Unit, 2
- Family Satisfaction Techniques: Meeting Family Expectations, 104
- Holistic Care of the Critically Ill: Meeting Both Patient and Family Needs, 218
- Patient-Family Conflicting Issues, Part II: Case Analysis, 46
- Patient-Family Conflicting Issues, Part I: The Case, 44
- Selecting A Model to Guide Family Assessment, 4

- Strategies for Motivating CCU Patients, 326

Family, Visiting

- Preparing Children for Visiting Parents in the ICU, 152

Neurology

- Transcranial Doppler: Advanced Technology for Assessing Cerebral Hemodynamics, 241
- Neuro-Invasive Monitoring: The Nurse's Dynamic Decision-Making Role, 170

Pain

- Providing Pain Control for the Critically Ill Substance-Abuse Patient, 282

Patient/Family Education

- Anxiety During Critical Illness of a Family Member, 272
- Discharge Teaching for the Directional Coronary Atherectomy Patient, 208
- Family Satisfaction Techniques: Meeting Family Expectations, 104
- Strategies for Motivating CCU Patients, 326

Preventing Complications

- Evaluating Unplanned Endotracheal Extubations, 114
- Preparing for Cardiomyoplasty: A New Horizon in Cardiac Surgery, 226
- Preventing Complications in Double-Lumen Endotracheal Tubes, 309
- Radiofrequency Catheter Ablation for Wolff-Parkinson White Syndrome Part 2: Preventing Complications, 17

Product Development

- Nurse Inventors: Turning Ideas into Products, 202

Product Evaluation

- Designing a Product Evaluation Project Using Research Principles, 264

Research Analysis

- *Inline Closed-System Suctioning: A Research Analysis*, 73

Respiratory

- Evaluating Unplanned Endotracheal Extubations, 114
- *Inline Closed-System Suctioning: A Research Analysis*, 73
- *Minitracheostomy: An Alternative to "Blind" Endotracheal Suctioning*, 38
- Nursing Assessment of Portable AP Chest X-rays, 133
- Preventing Complications in Double-Lumen Endotracheal Tubes, 309
- Preventing Unplanned Extubations, 123
- Promoting Ventilator Independence: A Grounded Theory Perspective, 29
- Synchronous Independent Lung Ventilation, 249
- *The Closed Tracheal Suction System: Implications for Critical Care Nursing*, 292

STATPack™

- Applying System-Based Family Models: What to Look for in Assessing Critical Care Families, 14
- Balancing Autonomy: Increasing Patients' Involvement in Decisions, 70
- Expanding the 12-Lead Electrocardiogram to Differentiate Ischemia, Injury, and Infarction, 180
- Marketing Critical Pathways in Critical Care, 323
- Preventing Complications in the Dynamic Cardiomyoplasty Patient, 238
- Preventing Unplanned Extubations, 123
